

Prime Element Ceramic Boost

Prime Element Ceramic Boost is a quick and easy way to add a smooth, glossy, hydrophobic layer to your vehicle's surface. Once applied, our unique formula provides a long-lasting shine that is slick to the touch. Keep your Prime film and/or painted surfaces glossy and protected for weeks to come with Prime Ceramic Boost.

Directions:

1. Do not use in direct sunlight. Use on clean and dry surfaces only. Make sure surface is cool to the touch.
2. Mist Ceramic Boost onto one section at a time.
3. Quickly spread the product using one section of a clean high-quality microfiber towel.
4. Using a new section of the clean microfiber towel, immediately wipe the area clean removing any additional residue. **DO NOT ALLOW PRIME CERAMIC BOOST TO DRY ON THE SURFACE.**
5. Reapply as needed

Caution:

Do not apply in direct sunlight. Apply on a cool surface only.
